PROFILE

Graduate in Web Application Development, 28 years old, highly motivated to grow in the field of web and software development. I am a responsible, solution-oriented person with strong teamwork skills. I adapt quickly to new environments and approach technical challenges with enthusiasm.

For my final project (thesis), I developed The Rusty Cauldron, a custom web application using ASP.NET and Entity Framework, available on GitHub. I am seeking to join a team where I can continue learning and contribute value from day one.
